Promoting Fact Checking to Counter Misinformation in Bangladesh

Prepared by

January 2025

Context

The prevalence of fake news and misinformation poses a significant challenge to the free flow of accurate information in today's world. While fact-checking teams and professionals exist in other countries' media landscapes, Bangladesh has yet to fully recognize their importance. Furthermore, fact-checking remains absent from the journalism education curriculum, leading to a lack of emphasis on this crucial skill among aspiring journalists and students.

Addressing this issue, it is imperative to cultivate a pool of competent journalists in Bangladesh's news media who possess fact-checking expertise. Simultaneously, it becomes essential to provide training to university professors so they can effectively teach journalism students about this subject.

In light of these needs, the ***"Promoting Fact Checking to Counter Misinformation in Bangladesh"*** project, supported by *Internews*, has been developed with the primary goal of enhancing the fact-checking skills of journalists, young individuals, and university professors. Through this initiative, the aim is to foster a responsive society that can effectively combat misinformation.

The overarching objective of this endeavor is to contribute to Bangladesh's development in alignment with the government's Vision 2041, the Eighth Five-year Plan, and the UN Sustainable Development Goals.

Project Objective

To create a responsive society against misinformation through capacity building of journalists, journalism teachers, and youths on fact checking.
